CANAL LOTTERY,
—FIRST CLASS—

Fifteen Thousand Dollars
HIGHEST PRIZE,
and only Five Dollars per Ticket.

THE undersigned having been appointed by his Excellency the Governor of the Commonwealth of Massachusetts, Managers of a Lottery, under an Act of the General Court of said Commonwealth, passed February 26th, 1814, and having given bonds for the faithful performance of the duties of their office, present to the public the following Scheme of the First Class of a Lottery under said Act.

This class will commence drawing in Boston in MARCH next, and as early in said month as consistently may be, *(and not in* APRIL, *as heretofore advertised in a part of the Schemes,)* unless the sale of Tickets should be such as to justify an earlier drawing; in which case the public will be duly notified through the newspapers. The Highest Prize will be paid in ninety days after the drawing is completed and all the other Prizes in sixty days, or at any time within one year after such completion, if demanded; but not afterwards. Payment to be made in bills generally current in this Commonwealth.

It is presumed this Scheme, *considering the very low price of the Tickets*, will be found to offer as flattering a prospect to adventurers in Lotteries, as any heretofore published in the town of Boston.

☞ Tickets may be had of the different Venders and of the Managers.

The Adventuring World!

Are again *treated* with an *old fashioned lottery* of the kind which have had such a *run* for years back, but on a *new* and *advantageous* plan; as no lottery ever drawn in this State, consisting of but 10,000 Tickets at only $5 each, could boast of a PRIZE of

FIFTEEN THOUSAND DOLLARS!

The *Tickets* and *Quarters* may be had, and are already selling rapidly, at

T. KIDDER'S

Fortunate Lottery Office, No. 9, Market-square, at the *old price*, viz:

☞ *Only* $5 Whole, $1 37 Quarters!

☞ *BUT RISE!* ☜

The beginning of next month, to $5 50 Whole—$1 50 Quarters.

☞ *The Chance of getting the handsome Portrice of FIFTEEN THOUSAND DOLLARS!*

For only 500 Cents, is too attracting to be neglected, and indeed has already caused such a demand for the Tickets, as to make it doubtful whether all who wish can become interested in the lottery. ☞ T. K. therefore recommends to his friends an immediate purchase.

☞ *And of his Office*, if their object is *gain* ☜

Persons at a distance wishing for Tickets or Parts—to any amount—can have them on the same terms at Kidder's as if present, by sending their orders by mail or otherwise, (post paid). The numbers of Tickets so sent will be registered, and their fate sent the owner when the Lottery has completed drawing.

*** To prevent mistakes, please write your name, town and State, plain.

Companies, and those who purchase to sell again, supplied with Tickets and Parts, on the most accommodating terms.

T. K. will publish a List of all the Prizes, as they come out during the drawing, in the *Centinel* and *Chronicle*; that persons at a distance who may wish to renew their Tickets during the drawing, may have an opportunity. He will likewise keep a complete Daily List of all the Prizes and Blanks, statement of the wheels, &c. that can be examined at his Office day and evening free of expence.

Boston, Dec. 22, 1814.

☞ PERHAPS there never was a LOTTERY granted in Massachusetts, that has met with such general approbation and encouragement, as has the Plymouth Beach Lottery. The schemes of the different classes already drawn, have been uniformly approved of. The Prizes have always been punctually paid, and all the concerns of the lottery conducted in the most correct manner. It is well known, that the object of the lottery is for a most humane purpose, which is not only to save the property, but also the lives of individuals. A lottery, therefore, granted for such a purpose, conducted in such a manner, and on such principles, cannot fail to meet with the most decided confidence and encouragement.—All the classes of this lottery have been constructed, as to afford great inducement to adventurers;—but it must be acknowledged, that the present class goes far before all the former, on this head, as the holder of *a single ticket* may draw the immense sum of

FIFTY THOUSAND DOLLARS!!

The Tickets and Parts may be had in variety, at the *well known* and *long established fortunate* lottery office of

T. KIDDER—9, *Market-Square,*

At $10 whole, $5 12 halves, $2 62 quarters, and $1 37 eighths.

It will be observed, that there is *no deduction* from Prizes, and *not two blanks to a prize.*

☞ From the immense number of *Fortunes* and *Prizes* which KIDDER has sold, his office has now become so *proverbial* for *Good Fortune*, that he deems it unnecessary to subjoin a splendid *List of Prizes*, to which he could make *many valuable additions*;—suffice it to say, that all who wish to be in the

MOST DIRECT ROAD TO FORTUNE!

will call or send to his office, for some of his *fortune giving* Tickets.

Persons at a distance wishing for Tickets or Parts, (to any amount,) can have them on the same terms at KIDDER'S as if present, by sending their orders by mail or otherwise—post paid. The numbers of Tickets so sent will be registered, and their fate sent the owner when the Lottery has completed.

CALVIN BAKER.

At the Roxbury Drug Ware-House,

RESPECTFULLY acquaints the inhabitants of Roxbury and its vicinity, that he has commenced business in the noted Apothecary's Shop formerly occupied by the late Mr. *Nathaniel Whitwell*, next door but one to *Doggett's* Hotel.

Possessed of that knowledge of the Apothecary's business, which has been acquired by nine years constant experience, he flatters himself he shall be enabled to afford every satisfaction to those who may please to honor him with their commands. In order to gain the entire confidence of the community, Mr. B. has adopted the arduous undertaking of attending to the whole business of his shop, without deriving any assistance from apprentices. If the public were aware of the imminent danger which frequently arises therein by receiving medicine from the hands of thoughtless boys, they would never hesitate to bestow every encouragement to one who by constant personal attention was determined to forego all amusement, recreation and exercise, for the comfort and security of the sick. Mr. B. is also determined to sell no Medicines but those which are of the very first quality; articles of an inferior kind which are often times kept to be sold cheap, shall have no place in his shop—and as it is also his intention to be supplied with every article in the line of his profession, and to sell at a very small advance, he hopes to merit and receive a proportionate share of medical and individual patronage.

N B Persons from the country passing into Boston, who may have orders to purchase medicine, by leaving those orders here, can by having them ready packed up on their return, save to themselves much time and trouble. All articles put into vials are handsomely labelled with the name of the contents, before they are permitted to go out of the shop.—The importance of this regulation, must be obvious to every one.

☞ Articles of Medicine instead of being charged higher than in Boston, as is erroneously supposed by some, will be sold by retail at least ten per cent cheaper. This fact needs no explanation, other than by observing that the expences of business in Roxbury are not more than half what they would be in the city. [12m] nov 30

Woolen Factory.

THE Subscriber will let for a long term of years, his MILL SEAT and other property, situated in Baltimore, County and State of Maryland, 12 miles from the City of Baltimore, and 4 miles from Reister's town, and immediately on the Baltimore and Reister's town turnpike road, considered one of the most public roads in the United States for the purpose of a Woolen Factory; the improvements consist of a large three story brick House, 50 by 60 feet, standing upon an eminence 55 feet above the level of the water, and having a Water Wheel overshot 24 feet high and 9 feet wide and 4 feet 6 inches head, which has been proved to turn 4 pair bar mill stones, with all the necessary machinery, making 96 barrels Flour in 24 hours. Persons experienced say, the construction of this House could not be better planned, if originally intended for the purpose either for the Woolen or Cotton Manufactory; the mill works having all been taken out, nothing remains but to put other works in suitable for the other purposes. In addition there is a large, commodious and elegant two story brick House, with three other mill finished brick and wooden Houses, capable of accommodating large families; besides other Houses, occupied by different mechanics, and oth rs, where board and lodging can at all times be procured, and as good a market at the door, as Baltimore City affords, for all the comforts and conveniences of living; there is, also, within a few hundred yards, grist mills and saw mills upon a large scale, and are equally to be considered in as healthy a part of the State as any part of any State in the Union, and in as equally as good neighborhood. I have no objections to take a very considerable interest myself in the concern, with persons I find agreeable to be concerned with. All who are unacquainted with the neighborhood of Baltimore, and wish to be informed as to particulars, I refer to any acquaintances they may have there, for information, as I presume there are few or none but know this situation. PEACE—SAFETY, and the Prospect of returning COMMERCE, and PROSPERITY.

"To THEE, *Great Sovereign of the Skies*,
This day our grateful Hymn is resound;
From every heart the praise rise,
And Praise on every tongue is found."

ON Monday morning last, a few minutes before Eight o'clock, we received by an Express in Thirty-two hours from New-York, the following Letter, which was immediately issued from this office in a Handbill:—

FOR THE PUBLIC.

To BENJAMIN RUSSELL, *Esq. Centinel-Office, Boston, &c.*

New-York, Feb. 11, 1815—*Saturday Evening*, 10 *o'clock.*

SIR,

I HASTEN to acquaint you, for the information of the Public, of the arrival here this afternoon of His Britannic Majesty's sloop of war *Favorite*, in which has come passenger Mr. CARROLL, American Messenger, having in his possession

A TREATY OF PEACE

Between this Country and Great-Britain, signed on the 24th December last.

Mr. BAKER also is on board, as Agent for the British Government, the same who was formerly *Charge des Affaires* here.

Mr. CARROLL reached town at eight o'clock this evening. He shewed to a friend of mine, who is acquainted with him, the pacquet containing the *Treaty*, and a London newspaper of the last date of December, announcing the signing of the Treaty.

It depends, however, as my friend observed, upon the act of the President to suspend hostilities on this side.

The gentleman left London the 2d Jan. The *Transit* had sailed previously from a port on the Continent.

This city is in a perfect uproar of joy, shouts, illuminations, &c. &c.

I have undertaken to send you this by Express—the rider engaging to deliver it by Eight o'clock on Monday morning. The expense will be 25 dollars;—If you can collect so much to indemnify me I will thank you to do so. I am with respect, Sir, your obedient servant,

JONATHAN GOODHUE.

☞ *We most heartily felicitate our Country on this auspicious news, which may be relied on as wholly authentic.* CENTINEL.

The money (25 dollars) paid the express for bringing the news of Peace to this town, was advanced by Mr GOODHUE in New-York—It was immediately collected here—and would have been, had it been ten times the amount—and refunded to the partner of that gentleman (Mr. WARD) in this town. In acknowledging the distinguished disinterestedness of the attention of Mr. G. we do but express the universal sentiment.

Many hundreds of the above Handbills were circulated in all directions.

It is impossible to do justice to the expressions of joy and gratulation which sat on every countenance, animated every tongue, and flowed from the heart of every man, woman and child, on learning the above news. The respectable source from whence it came prevented the least shadow of doubt of its authenticity.

In a few minutes after its promulgation, all the bells announced the receipt of happy tidings, and expresses posted off to all parts to diffuse them. Business of every kind was immediately suspended; and the whole population of the town devoted itself to expressions of joy. A holiday was directed in all the schools; the stores and shops were closed; and the thronged streets—where nothing was heard but the cheering sounds of gratulation and loud huzzas—were decorated with the ensigns of all the Commercial Nations, and the American and British flags were seen waving together, united by wreaths of olive and *laurel*. The forlorn ships at the wharves and docks, once more dispersed their colors; and yesterday the busy hum of the implements of the Mechanic was heard on board many of them, in fitting them again for sea.

Orders were given for the immediate parade of all the elite of the military; and in a very short time, the Ancient and Honorable Artillery, Independent Cadets, Boston Light Infantry, Winslow Blues, Fusiliers, Washington Light Infantry, and Rangers, were under arms; and made a brilliant *feu de joie* in State-Street.

The Sea-Fencibles, the New-England Guards, and the battalion of Artillery, under Major HARRIS, paraded with their pieces, and made the welkin ring with their salutes.

Harvard University, at Cambridge, was splendidly illuminated in the evening, on this happy occasion.

Among the illuminations in Boston, were the Columbian and Boston Museums, the Exchange Coffee-House, the Gazette Centinel, Palladium, Daily Advertiser and Evening Gazette printing-offices, the Post Office, Mr. Greenwood's office, Mr. Bradley's bindery, Mr. Bond's shop, Mr. Lewis's shop, Congress-street; Mrs. Campbell's boarding-house, Pearl-street; Mr. Hayl's Factory and Mr. Shed's shop, Milk-street; Mr. Gibbens' shop, Summer-street; the Province-House, Mr. Hayt's shop, and Mr. Meriam's boarding-house, Main-street; Messrs. True and Bangs' shop, and a house in School-street; Mr. Strong's shop, Water-street; Mr. Shaffer's Hotel, Commun-street; Mr. Gopsill's house, Cornhill-square; Mr. Haskell's house, bottom of the Mall; Mr. Fish's and Mrs. Rouke's boarding-houses, Congress-street; and many other houses and shops.

CONFIRMATION.

[BY THE MAILS OF YESTERDAY.]

NEW-YORK, SATURDAY, FEB. 11, P. M. 9 O'CLOCK.

"It has pleased the Almighty to restore to us the blessings of Peace."

HENRY CARROLL, Esq. Sec. of American Legation, has just arrived here, and informs that he has arrived in the British sloop of war Favorite, with the Treaty of Peace between the United States and Great-Britain, signed at Ghent the 24th December; and *ratified by the British Government on the 30th December*. He will immediately depart for Washington with The Treaty.

The Favorite lies below, and is commanded by Capt. MOWATT, and left Plymouth the 2d January.

Mr. BAKER, late Secretary of the British Legation in Washington, is also a passenger in the Favorite; and is the bearer of a ratified copy of the Treaty. He will also proceed to Washington immediately.

Mr. HUGHES, one of the Secretaries to the American Commission, sailed in the *Transit*, from Bordeaux, for the U. S. the 30th December.

We understand the treaty is highly honorable to our country; and that it had given great satisfaction in England. *As soon as it is ratified by our government, hostilities are to cease*, Mr. BAKER is to act as *Charge des Affaires*.

From the COMMERCIAL ADVERTISER EXTRA, *Feb.* 12.

" Mr. BAKER has come out for the purpose of receiving the ratification of the President and Senate, and communicating the joyful tidings to the British fleets and armies in this quarter of the globe."

Mr. CARROLL, with whom we have been favored with an interview, states, that the terms of the treaty are such as to leave no doubt that they will be immediately ratified by our Government. The London "*Times*," a ministerial print, denounces the treaty in the strongest terms, as highly dishonorable to England; while the "*Morning Chronicle*," an anti-ministerial paper, considers it as advantageous to the British nation. A meeting at Westminster was held on the 29th December, for the purpose of petitioning for the repeal of the income tax; at which Mr. CARTWRIGHT, one of the orators of the day, represents the peace with America, as a happy circumstance to Great-Britain.

The Favorite yesterday spoke the British frigate Endymion, in company with the Tenedos.

" *We know not who the "Times" is called a ministerial paper. It has always supported the Wellesley party, which was supported by the present British Administration. It is true the "Times" was in the Pitt interest; but its opposition to the present administration, for some ly, has been openly avowed.* CENTINEL.

EXTRACT OF A LETTER " LONDON, *Dec.* 30, 1814

" The bearer of this [Mr. CARROLL] carries with him the olive branch of Peace. The Treaty was signed at Ghent the 24th inst and has been ratified by the Prince Regent; but hostilities [of course] are not to cease until ratified by the President. We sincerely congratulate you on this joyful event."

PEACE WITH AMERICA.

PARIS, DEC. 27. This day the Duke of Wellington received, by a courier from Ghent, the news of Peace having been signed with America. ☞ The London *Courier*, commenting on this article, says, it had not been announced in the *Moniteur*, nor had a single comment been made on this important event.

LONDON, DEC 29, 1814. When Mr. BAKER was sent with despatches from Lord GAMBIER, the American Envoys also transmitted despatches by way of France for America, to be embarked at L'Orient.

Despatches have been sent to America, with the Treaty, to Sir ALEXANDER COCHRANE, Corl OWEN, &c. which from the state of the winds must have left Portsmouth.

CONGRESS OF VIENNA.

LONDON, DEC 31. The last advices from Vienna are to the 16th inst. but, as usual, they are unofficial, vague and contradictory.

They state on one side, That the British Prince Regent had declared to his Ministers in private instructions, [*which, though private, it seems these letter-writers have made acquainted with*] that England would rather see some sacrifice of her German Provinces than to see Saxony divided, and her lawful sovereign despoiled. That Russia had agreed to restore to Prussia a part of Poland, containing a million and a half of souls; and exchange some other Polish possessions with Austria; and thus, that the King of Saxony will recover his dominions. That Lord CASTLEREAGH, and the Austrian Minister, METTERNICH, have both protested in an energetic, and argumentative manner, against the cession of Saxony to Prussia; and that the Ministers of Russia and Prussia have definitively acceded to the articles proposed, relative to the left bank of the Rhine, Poland and Saxony; and will shortly deliver a counter-declaration on the subject.

On the other hand, it is stated from the same place, That Prussia is in the exercise of a full administration of the affairs of Saxony; that she was reorganizing the landwehr, and that the Saxon volunteers who had joined the Prussian colors, preferred generally remaining in the service, to returning to civil life.

It is impossible amidst such jargon to ascertain any thing like the truth at present.

The Russians have not yet evacuated the city of Hamburg. The King of Würtemburg has protested against the project of giving Mentz to Bavaria.

" VIENNA, DEC. 11. The news that announced the journey of the King of Saxony to Vienna as certain, begins to die away, as well as that which gave us hopes of seeing here the King of Sardinia, and even at the Court of Duke Albert of Saxe Teschen, it is denied that the changes lately made in a part of the House had any view to the reception of the King of Saxony—the fate of this country is presumed to be decided.

" It is quite certain, that since the 3d of this month the stay of the Sovereigns has been prolonged for six weeks, it being judged, from the business to be done, that so much time would be requisite. Many an object more turns on unexpected side to the light, and though formerly imagined easy of discussion, presents its difficulties. Prince TALLEYRAND is said to be particularly happy at finding out such difficulties—but the good result gains by all this, since that alone can be stable which has been examined on all sides. It is a mistake when people think that France acts quite for herself at this Congress, opposed to all the other powers, and without friends."

We can assert that nothing has yet been fixed respecting the fate of Saxony and Poland. It is stated that the Russian government has made a proposal to declare Thorn and Cracow, Hanseatic cities of Poland.

BREMEN, DEC. 15, 1814.

It is understood that Austria has offered, in the event of the Vistula being declared the boundary of the Russian Empire in Poland, to give up to Prussia the Polish provinces of Cracow and Sandomir, lying on the left bank of the Vistula, and formerly belonging to Western Galicia.

Slave Trade. It would appear, that in relation to the slave trade, an agreement has been come to, that its abolition, however interesting to humanity, does not admit of being settled, or farther decided by the Congress. The reason assigned is, that the powers most concerned in it, such as Spain and Portugal, will not accept of the interference of the continental powers in regard to that abolition, while they, on the other side, take no part in the territorial disputes of the former.

LATE FROM ENGLAND.

The British sloop of war Favorite, 20 guns, has arrived in New-York in 32 days from England, bearing the Olive Branch, and the

GREAT AND CHEERING NEWS,

That a *TREATY OF PEACE* between the United States and Great-Britain was concluded in *Ghent*, the 24th December; and RATIFIED by the Prince Regent the 30th. It reached N. York on Saturday evening last; was no doubt received in Washington yesterday; will probably be laid before the Senate this day; and from the information we have received there cannot be much doubt that it will be promptly ratified; and a Proclamation declaring a Cessation of Hostilities be issued; which, if due diligence is made, may reach this town on Sunday or Monday next. ☞ *See the wide column for the news on this head—and extracts from London prints to the 31st December.*

☞ The *Congress of Vienna* was in session the middle of September; and the speculations on their proceedings continue as crude, contradictory and unofficial as heretofore. We do not perceive any thing in them, which threatens the tranquility of Europe; but Peace having been concluded between the U. S. and England, indications of the kind have lost their interest.

Our letters from Washington make no mention of the great National Nominations which have appeared in the papers.

Of NEW-ORLEANS—Important if true.

We have no later news direct from New-Orleans than the 14th January; but the mails of yesterday brought the following report from Savannah:

SAVANNAH, JAN. 31. We have authentic information from Darien, which states, that on the 27th Jan. a bomb ship arrived at St. Mary's from the squadron off New-Orleans, in six or seven days; the officers of which, after stating the defeat of the British forces on the 8th, added, that there were scarcely officers enough left to conduct the balance of the army off the field; that the expedition had been abandoned, and that the remainder of it would be turned against Savannah.

THE PROSPECT BEFORE US

Unfolds hourly. The return of Peace will bring the revival of *Commerce*, the *Fisheries*, *Industry*, and *Enterprize*. All Commercial Restrictions annihilated—the World at Peace,—all its ports are open to receive American vessels; and we hope ere sixty days elapse the ocean will be whitened with their canvas.

COMMUNICATION. The doors of the *Temple of Janus* are now closing, for the first time in Christendom, for many, many years. Heaven grant they may continue so long closed, that their hinges may grow sufficiently rusty to render it impossible again to open them.

The London "*Times*" laments the Peace with America, because, it says, it will give the U. S. an opportunity to build up a Navy. We hope the American Administrations, whatever they may be, will profit by this lamentation."

In the new bill brought forward in Congress by Mr. *Harbour*, of Virginia, "to incorporate the subscribers to the Bank of the United States of America"—the Commissioners designated to receive subscriptions at Boston, are, *Jarvis Thorndike, Thomas H Perkins, William Gray, Aaron Hill*, and *Samuel Brown*, Esq'rs. The first mentioned gentleman in the room of Mr *Lloyd*, whose name had been withdrawn from the former bill at his request, and Dr. *Hall* in lieu of Dr. *Eustis* appointed Minister to Holland.

A CARD—The widow and connexions of the late THOMAS M'COBB, Esq. Representative from Thipsburg, (Me.) tender their unfeigned thanks to Dr. GEORGE PARKMAN, for his unfatigable attention to the deceased, during his late severe illness; and for this consideration, they more cheerfully offer to Dr. PARKMAN this public testimony of regard, rather than from the circumstance of his having declined any pecuniary compensation whatever.

They sincerely hope that his benevolent exertions toward laying a foundation of his proposed establishment, will meet with the countenance and support of the public, and that his most sanguine wishes in the attainment of this object will be finally crowned with complete success. *Boston, Feb. 8th*, 1815.

JOHN JOHNSON

To the Honorable Senate and House of Representatives, in General Court assembled.

Humbly shew—

THE Boston and Roxbury Mill Corporation that by an Act of this Honorable Court, passed in June last, they were incorporated with the power, among other things, to make a dam from Boston to South Boston, and northerly or easterly to South Boston Bridge constructed to admit and detain the tide waters within the space above such dam to create a head of water to supply the Mills; that the original design of the Petitioners for said act of incorporation was, to have created the full basin on the westerly side of Boston neck, and not as a present grand, on the easterly side, that with a view of conciliating many interests which were opposed to that scheme, they yielded to the remonstrances made by sundry persons to this Honorable Court, and did not oppose the alteration which those remonstrants proposed of changing the basin, that is of making the full basin on the easterly side of the neck, instead of the westerly side thereof, though your Petitioners were then aware of many disadvantages attending this change, particularly as the space now permitted to be enclosed for a full basin, is much smaller than that which was intended in the original plan to have been enclosed for this purpose. To obviate which, your Petitioners then proposed to erect the dam to South Boston from Wheeler's Point, but met with too many obstacles to effect this object so essentially necessary, they conceive, to complete this great and important scheme. One extra Lodge held out to induce the Legislature to listen to the prayer of those remonstrants was, the creation of an extensive wet dock immediately accessible from the harbor; and it is not to be denied, that they got at and obvious advantage did result from changing the basins, through at the expense of many conveniences embraced by the original plan.

But your Petitioners have been and now are convinced, that a dam made at South Boston Bridge, would not form a wet dock which would afford the convenience so for shipping which can alone render a wet dock of much importance to a port like Boston—there is not depth of water sufficient at South Boston Bridge to admit large ships, which with more than others require the accommodation and which ought to be afforded by a wet dock. Opposite to Wheeler's Point the water is one third deeper than at South Boston Bridge, extensive and commodious wharves fill the space between, and indeed this space is perhaps alone capable of being converted into a wet dock, for the accommodation of shipping. Your Petitioners beg leave to add, that by building the dam at Wheeler's Point, the head of water for the mills will be increased in proportion to the enlargement of the basin and this obviates one of the principal disadvantages arising from changing the original scheme. Your Petitioners have learned that many who opposed the grant to leave to build the dam from Wheeler's Point, are now convinced that it is more for the interest of the public, and for the individuals whose estates may be affected, that the dam should be built from this place, it is however, obvious that the dam will be much more expensive than if built from South Boston Bridge, and though the advantages which will flow from changing the place, are principally of a wholly private nature, yet the additional expense must be borne by the corporation. While, therefore, your Petitioners pray the leave to change the place of the dam to Wheeler's Point, they ask also, the liberty to make a good and substantial road thereon, and to be allowed such a toll for passing the same as the Legislature may think an adequate compensation for their additional expense.

A good Wood-Lot within four miles of the premises, may be had with it. For terms, enquire of the subscriber, on the premises, where a plan of it may be seen.

AUCTION SALES.

Full-blooded MERINO SHEEP, AT PUBLIC SALE.

100 EWES, the principal part of which have LAMBS, will be offered at public sale on the second day of the third month next, (March) at 11 o'clock, on the Schuylkill Sheep Walk, near the Rising Sun, on the Germantown road, about four miles from Philadelphia. An opportunity like the present has rarely been offered to those who are desirous of possessing this valuable animal, and improving their stock. The flock of which these are a part are so celebrated, that it is deemed almost unnecessary to say any thing respecting it, more especially as it is expected that those who may wish to purchase, will examine the Sheep, when they will at once be satisfied of their genuine-ness and superiority. Great pains have been bestowed on them, and frequent selections made of those that could be considered inferior. They are esteemed by judges to be equal to any in the United States not only as respects size, form, and general appearance, but for fineness of fleece—and are from 1 to 6 years old, and in perfect health. That persons residing at a distance, desirous of purchasing may not be disappointed or deterred from attending the sale, it is thought proper to mention, that the sheep will not be disposed of under any circumstances, before the time appointed as above—and should the day prove unfavorable, the sale will take place the first fair day. The terms will be cash, or approved endorsed paper, negotiable in Philadelphia—less than 5 sheep, cash—from 5 to 10, sixty days—more than 10, ninety days—a deduction of 1 per cent. per month will be made for prompt pay. The sheep to be at the risk of the purchasers from the time of sale, but not to be delivered until settled for, which must be done within one week after the sale, or they will be disposed of on account of the purchasers.

The flock may be viewed at any time, on application to the Sheep Walk, or to the subscribers

THE Subscriber takes this method to

inform the Public in general, and *Joseph Farley*, Esq. Collector at Waldoboro', in particular, that about the tenth of December last, five men, who said their names were *Timothy Kimball, Tho's Barnes, Wm. Barnes*, and two by the name of *Canes*, came on board an open Boat, then in Muscuito Harbor, and took one barrel of Crockery-Ware, and two Grindstones, worth about ten dollars—pretending to act under the authority of the Collector. From the character of Mr *Farley*, it is presumed he will never countenance such proceedings, and from the appearance of the plunderers, it is presumed they will never report their conduct to him, if they were indeed acting under his authority. The Boat and property were owned by the Subscriber, commanded by *John M'Kellar*.

DR. MOORE'S

ESSENCE OF LIFE.

A VALUABLE MEDICINE,

Which if rightly applied, will be the means of snatching thousands from the jaws of death. It has been found very efficacious in the following diseases, viz. *Consumption, Whooping Cough, Common Coughs, Colds, Difficult Breathing, Influenza, Quinsy, Asthma, Phthisic, Spitting of Blood, Thirdness, Indigestion, Looseness of the Bowels, Fits of every kind, Cramps, Rickets, Scurvy, Colic, Catarrh, Dysentery, Faintings, Hypochondriac Affection, Headache, Sickness at Stomach, Measles, a preventative of Contagious Diseases, Gout, and Rheumatism.*

THIS Essence answers a valuable purpose in almost every case of debility; and there are but few, if any diseases, which do not arise from that source,—It may be given to either sex, and at any period, if weakness prevails—the composition being entirely derived from the vegetable kingdom. The whooping Cough may be cured in a week, if taken at the commencement of the disease.

☞ The following Certificates show its reputation where it is known:—

Certificate of the Hon. Daniel Buck, *late Member of Congress.*

I HEREBY certify, that for eighteen years past I have been most of the time troubled with a tedious cough, occasioned by a catarrhal affection; that in the course of last summer and fall its increase, accompanied with strictures upon the lungs, night sweats, cold chills, temporary heats, a general wasting of flesh and diminution of strength, and a constant fever, strongly indicated an approaching consumption;—that though I applied to sundry Physicians and made use of various medicines, I obtained no relief until I committed myself to the care of Dr. JONA. MOORE—this was in November last. He liberally administered his *Pectoral Drops* or *Essence of Life*. In less than twenty-fours hours after taking of this medicine, I found myself in a degree relieved, and I impute the change almost entirely to the use of the Essence. My night sweats, cold chills, and temporary heats, have wholly subsided, my fever has much abated, my cough has nearly left me, and I now exhibit every appearance of returning health.

DANIEL BUCK.

Norwich, (Vt.) February 17, 1806.

Certificate of the Rev. Aaron Hall.

THIS certifies, that I have made use of Dr. JONA. MOORE'S *Essence of Life* for myself, when there was an obstruction upon my lungs, and have found special relief—and from popular report, must believe it of eminent usefulness, especially to debilitated habits. It appears to me to be a valuable discovery, and that it may be of eminent service to the human species.

Keene, May 2, 1804. AARON HALL.

Certificate of the Hon. Stephen R Bradley.

I STEPHEN R. BRADLEY of Westminster, in Vermont, do certify, that I have been for some time well acquainted with the good effects of Dr. JONA. MOORE'S *Essence of Life*, in my own family, and others—and can recommend it to be an extreme safe and useful Family Medicine, in Colds, Coughs, and all disorders of the Lungs and Breast; in the Whooping Cough and all spasmodic complaints; and make no doubt the citizens of America would receive great benefit in a more general use of the same—And being personally acquainted with Dr. MOORE, and finding him to be a discret and well informed man, I cannot but hope he will receive all due encouragement.

STEPHEN R. BRADLEY, L. L. D.

Westminster, Sept. 2, 1805.

TO WHOM IT MAY CONCERN.

WE the undersigned Physicians, who have proved the efficacy of Dr. JONA. MOORE'S *Essence of Life*, conceive it our duty to patronize the Medicine, and are of opinion that, if generally used, it will be of public utility.

CONCERT of SACRED MUSIC,

On THURSDAY EVENING, 16th (Feb.) inst. at the Rev. Dr. *Baldwin's* Meeting-House.

The Pieces to be performed are selected from the Oratorios of the most favorite Authors of Europe.—They are the following:—

Extract from Handel's Oratorio of Judas Maccabæus, Duett—"*And Judea Happy Land,*" &c.

Chorus, set to the same words; to which will be added, the *Concluding Hallelujah Chorus* of the above Oratorio.

Anthem—set to Jubilate XIX 2—"*Blow the trumpet in Zion,*" &c.—by Tuckey.

Handel's Ode for St. Cecelia's Day—"*As from the power of sacred lays,*" &c.

Extract from Handel's Judas Maccabæus, "*SOUND AN ALARM,*" &c.

Extract from Handel's Grand Dettingen Te Deum, "*WE PRAISE THEE O GOD,*" &c.

Chorus—"*And the spirit of God moved upon the face of the waters*" &c.

Recitative. Uriel—Tenor Voice—"*And God saw the light, that it was good,*" &c.

Song. Uriel—Tenor—"*Now vanish before the holy beams the gloomy shades of dark—The first day appears—Disorder yields to order fair the place—Affrighted fled hell's spirits black in throngs—down they sink in the deep of abyss to endless night.*"

Tutti—All parts unite to represent the agitation and rage of the jarring sparks—"*Despairing, cursing rage attends their rapid fall*"

Chorus—"*A new created world springs up at God's command.*"

Song. Gabriel, Uriel, Raphael—in succession.

1. Gabriel—Treble—"*Most beautiful appear,*" &c.
2. Uriel—Tenor—"*In lofty circles playe,*" &c.
3. Raphael—Bass—"*See pushing thro' the yielding soil the various germs—the full ear the various grain—the fruit on thousand ways around,*" &c.

Song. Gabriel—"*The marvellous work beholds amazed the glorious harmony of Heaven,*" &c.

Caro—"*And to th' ethereal vaults resounds the praise of God,*" &c.

Song. Raphael—"*Softly purling glides on thro' glens the limpid brook.*"

Chorus—"*The heavens are telling the glory of God—The wonder of his work displays the firmament.*"

Trio. Gabriel, Uriel, Raphael—"*In all the lands resounds the word—never unperceived, ever understood.*"

Tutti—all parts unite—"*The heavens are telling,*" &c.

Handel's GRAND HALLELUJAH CHORUS:

To which will be added, a *GRAND DOXOLOGY.*

All the above *Anthems* and *Choruses* will be performed with full Accompaniments. The *Trios, Duetts, Songs, Solos*, and *Recitatives*, with light Accompaniments. The accompaniments to most of the above pieces were written by Messrs. GRANDIN and SCHAFFER.

☞ It is expected that the Rev. Mr. RICE, late Missionary to India, will deliver an ADDRESS on the occasion.

☞ The Concert will be opened with a favorite Overture of *Pleyel*, by the Band, at 6 o'clock precisely.

Although the above Concert will unavoidably be attended with much trouble and expense, especially that part of it which comprises the rare and astonishingly sublime and descriptive productions of *Haydn*—extracted from his CREATION, which has never been exhibited in *New-England*, if ever in this country; yet it is concluded to set the price of Tickets at no more than FIFTY CENTS. As some of the grand objects of getting up the above Concert, are to entertain the friends of the Society, and the public—to encourage the pleasing art of Music upon an enlarged scale, and the laudable efforts of those who may exert themselves to bring forward the sublime and learned productions of *Handel, Haydn*, and others: the Society confidently believe, the public will liberally patronize their efforts.

*** *Tickets* may be had of MASSINO & LORINO, No. 2, Cornhill—LINCOLN & EDMANDS, No. 53, Cornhill—and at Dr. FENNELLY'S, No. 33, Prince-street.
